11/9/26											

Follow up to ongoing complaints and referrals from NJDOH.

Evidence of ongoing rodent activity along west wall (pet food) visible droppings on numerous shelves & floor. Floors under shelving have droppings, dirt, dust & debris as to provide potential harborage.

Shelving & materials in corners render areas inaccessible for cleaning & inspection / extermination.

Dog found along west wall appears to be harboring rodents (numerous droppings on horizontal walls).

Store has pulled a large amount of pet food from the primary area - shelves in pile provide harborage & prevent inspection & extermination.

Store reportedly has authorization for a cleanout & extermination which may require a 1 day closure.

Advise this office of the date within 48 hours or further / civil action will be required.

Signature of Individual Completing Form	Signature of Owner of Facility, Establishment, etc. if required
